

Telecare Support

About Opportunity

Our telephone service supports unpaid carers where the person they care for is aged 65 years old or over. Volunteers can help deliver our telephone service supporting unpaid carers where the person they care for is aged 65 years old or over. We offer a friendly voice at the other end of the phone for people to have a chat with and are there to listen with emotional and practical support. As part of a team you will join our rota for staffing the helpline. Training will be given and because of the nature of our work PVG membership will be required

About PKAVS Carers Hub

PKAVS Carers Services support unpaid Carers of all ages, living in Perth & Kinross and caring for family, partners, friends or neighbours. Using a holistic approach in working with people who have caring responsibilities we help carers retain a life outside of caring and develop skills or interests to enhance their own lives

Skills & Experience

Volunteers will have an active interest in people and over time become a 'good friend on the phone', someone the carer can share a laugh with but most importantly be there to listen and give emotional and practical support during difficult times.
